

SNEHA RUDANI

Python / Django Backend Developer

Ahmedabad, Gujarat | +91-7016301516 | sneharr25@gmail.com | [linkedin.com/in/sneha-rudani](https://www.linkedin.com/in/sneha-rudani) | github.com/Nehaa2509 | sneha-portfolio.vercel.app

PROFESSIONAL SUMMARY

Backend-focused Python/Django Developer with a strong track record of designing RESTful APIs, role-based authentication, and automated production backend systems. Built and deployed live cloud applications featuring real-time UPI payment gateways (Cashfree, Razorpay), automated PDF document generation, and analytics dashboards. B.E. IT graduate (CGPA 8.61/10), immediately available for Python/Django Backend Developer roles at innovative product teams.

CORE SKILLS

- **Languages & Web:** Python, JavaScript, SQL, HTML5, CSS3
- **Backend & APIs:** Django, Django REST Framework (DRF), RESTful API Design, JWT Authentication, OOP, Django ORM
- **Data & Databases:** PostgreSQL, SQLite, Pandas, NumPy, scikit-learn
- **Tools & Deployment:** Git, GitHub, Render, Postman, ReportLab, Chart.js, Razorpay & Cashfree Payment APIs

KEY PROJECTS

VitalBook — Hospital Appointment Platform

Django, DRF, JWT, SQLite, JS, Chart.js, Render

- **Architected** full-stack healthcare booking platform with role-based access control (Patient, Doctor, Admin), OTP registration, and JWT-secured Django authentication.
- **Integrated** Cashfree UPI payment gateway and SMTP email notifications, making appointment booking-to-confirmation 100% automated and hands-off.
- **Engineered** PDF prescription generation via ReportLab and an interactive Chart.js analytics dashboard with appointment slot validation.
- **Links:** [Live Demo](#) | [GitHub Repository](#)

OQIREL — Django E-Commerce Portal

Django, REST API, Razorpay, ReportLab, Render

- **Built** boutique e-commerce web platform for artisanal products with dynamic category sliders, glassmorphic UI, and inventory tracking.
- **Implemented** Razorpay payment gateway integration paired with automated PDF invoice generation and order status tracking workflows.
- **Deployed** live system to Render cloud infrastructure with optimized database queries and static asset caching.

WORK EXPERIENCE

Backend Developer Intern (Django) — QSkill

Remote | June – July 2026

- **Engineered & shipped** production-ready Django REST Framework APIs with JWT authentication, enabling secure role-based access across service modules.
- **Hardened API reliability** by executing comprehensive REST endpoint testing and isolating data-flow defects prior to code handoff.
- **Designed RESTful endpoints** following token-based access control and least-privilege security principles to safeguard user data.

Python Developer Intern — Software Education

Ahmedabad | Jan – Apr 2026

- **Developed** clean, object-oriented Python scripts for modular backend data processing, adhering to reusable software design patterns.
- **Optimized** script execution efficiency and documented workflow specifications, cutting teammate onboarding time by 30%.

AI & Machine Learning Intern — Elevate Labs

Bengaluru (Remote) | Jan – Apr 2026

- **Executed** end-to-end ML data pipelines (preprocessing, feature engineering, model training/evaluation) using scikit-learn, Pandas, & NumPy.
- **Increased** model accuracy by 12% via cross-validation & hyperparameter tuning; certified by MSME (Govt. of India) & Skill India.

CERTIFICATIONS

- **AI & ML Certificate:** MSME Govt. of India & Skill India Certified (Apr 2026)
- **Microsoft Data & AI Training:** 78-hr Azure AI & Data Pipelines — CloudThat, Cert ID: CT/25/945742 (Jul 2025)
- **AI & Problem-Solving Certificate:** CSRBOX & GTU Summer Internship Program, ID: CSRBOX2025AI1060 (Jul 2025)
- **Python Programming (Grade A):** Software Education, Nikol — Govt. Reg. GJ01D0040370 (Feb 2026)
- **QSkill Virtual Internship:** Back-End Development Certificate, ID: qspybknd260601 (Jul 2026)

EDUCATION

B.E. in Information Technology — Apollo Institute of Engineering and Technology (GTU)

Sept 2022 – June 2026

Ahmedabad, Gujarat | **CGPA: 8.61 / 10**
